Re: Cochrane Steel.

To whom it may concern:

Cummings Construction has been doing business with Cochrane Steel for more than 20 years, providing concrete reinforcing and welded wire mesh. We have never had a project that was not completed on time and in a professional manner.

I am proud of the ongoing relationship we have with Cochrane steel and look forward too many more years working together. My confidence level is so that I actually do not request pricing from any other rebar fabricators. I consider them to be a great part of my team. If you have any questions, please feel free to call me @ 704-400-1321

Please contact my office if you have any questions or if I may be of service.

Sincerely,
